

**SUPPLEMENTAL TABLES ON  
MORTGAGE LENDING IN EVERY MASSACHUSETTS CITY & TOWN, 2013**

---

to accompany

**Changing Patterns XXI**

**Mortgage Lending to Traditionally Underserved Borrowers & Neighborhoods  
in Boston, Greater Boston and Massachusetts, 2013**

BY

**Jim Campen**

The tables in *Changing Patterns XXI* present data on mortgage lending in Boston, Greater Boston, and Massachusetts, and for the state's 33 largest cities & towns. These supplemental tables provide information on 2013 lending in all of the state's cities and towns, including subtotals for each county.

1. Total & Government-Backed Loans (GBLs)
2. Total & GBL Home-Purchase Lending to Black, Latino & White Borrowers
3. Total & GBL Refinance Lending to Black, Latino & White Borrowers
4. Denial Rates by Borrower Race/Ethnicity, Home-Purchase Loans

(Note: Each of the four tables is seven pages long.)

PREPARED FOR

\* Lending data are not shown separately for the 61 towns that consist of only part of a census tract (in one case, a town—Winchendon—contains one complete tract, but shares a second tract with another town). Census tracts are the smallest unit for which lending data are reported under the Home Mortgage Disclosure Act (HMDA). In these cases, the towns have been placed into 22 groups that fall within census tract boundaries; most of these groups consist of two towns, but in two instances six towns share a single census tract. These groups are shown at the end of each county's alphabetical listing of towns. In some cases, space limitations required cryptic abbreviations.

\* Lending data are not shown separately for the 61 towns that consist of only part of a census tract (in one case, a town—Winchendon—contains one complete tract, but shares a second tract with another town). Census tracts are the smallest unit for which lending data are reported under the Home Mortgage Disclosure Act (HMDA). In these cases, the towns have been placed into 22 groups that fall within census tract boundaries; most of these groups consist of two towns, but in two instances six towns share a single census tract. These groups are shown at the end of each county's alphabetical listing of towns. In some cases, space limitations required cryptic abbreviations.

# When no loans were made to black and/or Latino borrowers in a town, the corresponding cells for "% GBL" and "GBL Share Disparity Ratio" are marked "na" for "not applicable." The cell for "GBL Disparity Ratio" is marked "???" when the "% GBL" for white borrowers in a town is 0.00%.

\* Lending data are not shown separately for the 61 towns that consist of only part of a census tract (in one case, a town—Winchendon—contains one complete tract, but shares a second tract with another town). Census tracts are the smallest unit for which lending data are reported under the Home Mortgage Disclosure Act (HMDA). In these cases, the towns have been placed into 22 groups that fall within census tract boundaries; most of these groups consist of two towns, but in two instances six towns share a single census tract. These groups are shown at the end of each county's alphabetical listing of towns. In some cases, space limitations required cryptic abbreviations.

# When no loans were made to black and/or Latino borrowers in a town, the corresponding cells for "% GBL" and "GBL Share Disparity Ratio" are marked "na," for "not applicable." The cell for "GBL Disparity Ratio" is marked "???" when the "% GBL" for white borrowers in a town is 0.00%.

\* Lending data are not shown separately for the 61 towns that consist of only part of a census tract (in one case, a town—Winchendon—contains one complete tract, but shares a second tract with another town). Census tracts are the smallest unit for which lending data are reported under the Home Mortgage Disclosure Act (HMDA). In these cases, the towns have been placed into 22 groups that fall within census tract boundaries; most of these groups consist of two towns, but in two instances six towns share a single census tract. These groups are shown at the end of each county's alphabetical listing of towns. In some cases, space limitations required cryptic abbreviations.

# When no applications from Asian, black, and/or Latino borrowers were reported for a city or town, the corresponding cells for the denial rate and the denial rate ratio are blank.
